ISO9001:2008 ISO/TS16949:2009

Since 1992, BOYU's successful development started from the acquisition of a state-Owned Automobile Electrical Factory. New Boyu have been succeed merge and reorganized completely on June, 2015 from Zhejiang Province Yongkang Hongyun industrial CO., Ltd. The production and supply service grow from china domestic aftermarket and china O.E.M supplies to export aftermarket and O.E.S. service markets worldwide.

Over 400 employees are dedicated to providing the customers with premium replacement alternators and starter motors, Globally.

ISO9001:2008 & ISO/TS16949:2015 certified facilities ensure quality products, better service and excellent care for our global customers.

Welcome to join in the global business development of BOYU.

The Boyu Culture

BOYU is determined to become the industry leader, and we realize that this goal can only be accomplished with the help of our team members. A philosophy has evolved within Boyu with regards to how team members are treated. We call this our "Boyu Culture" and it can be summed up by the following ideas.

Honesty

We believe in honest and fair dealings with our customers, suppliers, and team members, and we believe in treating people with respect... as we would like to be treated. We also believe in expense control. By "watching our pennies," we can offer lower prices to our customers and provide better wages and benefits to our team members.

Enthusiasm

We value enthusiasm, hard work, dedication to our company and dedication to our way of doing business. We value every single one of our customers and every single one of our team members. Without dedicated, hard working team members we wouldn't have customers, and without loyal customers we wouldn't have a business.

Customer Service

We are committed to excellent customer service. If we do everything we can reasonably do to meet the needs of our customers, they will continue to reward us with their business. We also expect our supervisors and managers to provide the type of leadership and supervision that keeps our team members happy, challenged, and productive. We know that working together, as professionals, we can accomplish anything.

Business Our Way

Our way of doing business works! However, we are in a very competitive business and we must continue to do everything possible to make certain that we have professional, well-trained and dedicated team members working in every single Boyu location; team members who believe in our way of doing business, and who believe in treating our customers and fellow team members in the Boyu way. This will ensure our continued success!
